

REMARKS

Missing Oath

The Examiner has indicated that the oath was missing. This is incorrect as an oath was submitted with this application. Applicants have resubmitted the oath from the parent of the instant application.

Rejections under Sections 112, 102 and 103

Applicants have amended the claims and believe that the section 112 rejections are moot in view of the amendments. Applicants have also amended the claims such that the claimed invention is directed to method and system of collecting bleeding information from a patient via a handheld device and believe the prior art does not anticipate or render obvious the new claimed subject matter.

CONCLUSION

In view of the above, Applicants submit that the application is now in condition for allowance and issue and respectfully request early action to that end. Applicants believe that no additional fees are due. However, should any fees be due, the Commissioner is hereby authorized to charge any fees in connection with this application and to credit any overpayments to Deposit Account No. 14-1447. The undersigned invites the Examiner to contact him/her by telephone if there are any questions concerning this amendment or application.

Respectfully submitted,

Date: October 15, 2008
